Examiner Comment:

All references *properly listed on the PTO-1449* have been initialed and thus considered. However, the applicants did not properly present the other documents' actual dates and thus these were not in conformance with MPEP 609. . These crossed out documents were listed under "OTHER DOCUMENTS" on the bottom of applicants' PTO-1449. Applicants should re-present these documents with the author, title, date, and pertinent pages for initialing by the examiner in a amendment under 37 CFR 1.312 properly presenting these documents on another PTO-1449 should they wish these documents to be listed on the final issued patent.

Also, the International Search Report is not a document and thus was crossed out.

Inquiries may be made to Paul Marcantoni at 571-272-1373.
